SSLC— *St Ann's matric Hr Sec School-TM-palayam.*

June 2017 - april 2018

I have completed my SSLC with 60% of marks from St ann's Hr

Secondary School TM–palayam , CBE-641010

PROJECTS

Automation of the ansible -linux server monitoring,

Automated server monitoring using Ansible for Linux systems by creating playbooks for regular health checks and performance monitoring. Set up alerts to track disk usage, CPU load, memory utilization, and network performance. Collaborated with the DevOps team to optimize and maintain the server infrastructure for improved efficiency and reliability.

Mobile price prediction use Tensor flow

Developed a machine learning model using TensorFlow to predict mobile phone prices based on various features such as specifications and performance metrics. Implemented data preprocessing, model training, and evaluation to achieve accurate price predictions.

SKILLS

HTML,CSS, React js,

C programming,

Php &MySQL

ADDITIONAL SKILLS

Team organization ,

Time management

HOBBIES

Playing Chess,

Drawing

LANGUAGES

English ,Tamil,malayalam
